Internship Alerts Virtual Internship Program (IA VIP)

Task List

Who We Are?

Internship Alerts is a **MSME Registered Global community** which works on comprehensive information about upcoming and latest internships and job updates.

We are on a mission to build global community with various startups and companies which will help students to build themselves.

Many people are not getting the updates due to lack of opportunity, lack of resources, lack of awareness that what is going on in the corporate sector. To meet the need of such people we made Internship Alerts.

"Build yourself in which you are passionate!"

Task List

- LinkedIIn Profile Improvement
- Website Development Task List
